Agreement between the Government of Malta and the Malta Union of Teachers
Working in a classroom in today’s world has never been more difficult. This is something that the general public may not fully comprehend, but it is a reality. The classroom is a pressure cooker of different abilities, different languages and different individual challenges. Educators are at the centre of it all and must face these challenges on a daily basis.

Over the past years we’ve invested a lot in the tools of educators. There was never so much investment in school infrastructure, computers and IT equipment. However, I will be the first to say that these are secondary needs. Ultimately, we must equip our teachers and other educators with the right set-up so they can effectively do their job. Trust and empowerment are two important elements of an educator. This agreement is not simply a financial one, but it is indicative of a wider effort to instil more respect and dignity with the teaching roles.

The unprecedented agreement presented before you is another step in our journey to empower and solidify the teaching profession in Malta. As you well know, the new syllabi as from next year and My Journey (myjourney.edu.mt) will sustain all current good practices and provide a more wide and humane education system which reaches more children and young people. Alternative programmes, including vocational and applied ones, will provide further opportunities to all our students and give them a better chance of reaching their potential. This agreement paves the way for this through improved career paths, better financial packages and allowances, a raise in salaries and pay-scales, and more continuous professional training programmes.

This is also another step for a better educational experience for all educators and learners. We remain committed towards excellence in education through, but not only, better school infrastructure, improved pedagogy and more autonomous school leadership. These are all areas we’ve worked hard on, and this agreement is yet another milestone, nonetheless the journey continues.

Applicability

For avoidance of doubt and clarification, teaching grades covered by this agreement are those educational grades that are indentified in clause 23.1 entitled Grading Structure. The provisions of this agreement shall come into force as of 1st January 2018 and shall remain in force till the 31st December 2022. There shall be no interpretation of any provisions in this agreement that may lead to any form of payment of arrears, unless otherwise stated in this agreement.
Part I – A Common Vision

1. Vision

1.1 The Ministry for Education and Employment (MEDE) and the Malta Union of Teachers (MUT) are committed to consolidate and build on the successes achieved in education in the past and are determined to remain committed to high standards of teaching and learning which are relevant, effective and timely, while respecting diversity in a strong democracy founded on social justice, equity and a strong economy. Through this Agreement both parties are committed to ensure that educational grades covered by this agreement are equipped to provide all children with the opportunity to develop into young people and adults possessing the necessary values, skills, and attitudes to be effective lifelong learners, active citizens and to give a meaningful contribution in both society and at work for their personal fulfilment and wellbeing as well as for collective growth.

1.2 Signatories agree to consolidate their commitment through ongoing dialogue and consultation to work in alignment with the values and for the achievement of the four main targets declared in the Framework for the Education Strategy for Malta 2014-2024 (2014), guided by the recommendations about the capacity building and use of educational resources put forward in the Education for All (external audit report, 2014), and inspired by the philosophy of values-based education promulgated in the Respect for All Framework (2014). Furthermore, it will reflect the UNESCO four pillars of education (Learning to Know, Learning to Do, Learning to Be, Learning to Live Together) (Learning: The Treasure Within, UNESCO Publishing: UNESCO, 1996) in My Journey: Achieving through Different Paths (2016) through a widened and more relevant Learning Outcomes Framework and related Learning and Assessment Programmes and any emanating documents thereof.

1.3 MEDE and the MUT acknowledge and recognise the investment carried out in the educational system to align teaching methodologies with developments in IT, and related infrastructure. Cognisant of this development signatories reconfirm their commitment to achieve maximisation of this investment within agreed parameters to ensure that learners and the learning community at large benefit and continue to be updated in line with pedagogical and technological developments.

2. Equitable Quality Learning for All

2.1 This agreement embraces and promotes equitable quality learning for all as defined by OECD:

*Equity in education can be seen through two dimensions: fairness and inclusion. Equity as fairness implies that personal or socio-economic circumstances such as gender, ethnic origin or family background, are not obstacles to success in education. Equity as inclusion means ensuring that all students reach at least a basic minimum level of skills. Equitable education systems are fair and inclusive, and support their students in reaching their learning potential without either formally or informally erecting barriers or lowering expectations.*

2.2 At every stage of pre-compulsory and compulsory education, learners have to be provided with opportunities to progress and develop, in accordance with their individual strengths, needs, skills, attitudes and personal circumstances in order to benefit the most from learning programmes and services. In the interest of all learners, it is necessary to continue departing from the one-size-fits-all schooling model, and further pursue the development of equitable high quality programmes.

2.3 This Agreement recognises the need to widen curricular experiences, which embrace the general academic, vocational education and training, as well as the applied/practical learning, whilst catering for the students’ multiple intelligences and competences through its widened learning outcomes framework as established in the technical document entitled The Educational Experience: My Journey and LOF Technical Document and Action Plan.

2.4 MEDE shall endeavour that all grades covered by this agreement shall be provided, with the necessary resources, according to the established policies, to be able to carry out their work efficiently and with the least bureaucracy possible. In this light and due to the reciprocal recognition of this importance, both sides agree to the introduction of an annual Work Resources Fund to grades as stipulated in this agreement.
3. School Autonomy

3.1 Signatories confirm their collaboration for a greater autonomy at school level in decision making within the Framework for the Education Strategy for Malta 2014-2024 whereby the Senior Management Team in its designated educational leadership role within the school context will be the decision maker, to respond and remain responsible to learners’ individual needs through an enhanced teaching and learning process.

This time shall be covered by Learning Support Educators or Kindergarten Educators Relievers (who may include Students performing practicum as part of further and higher education studies in a related area), and if required classes may be joined, provided student population will not exceed the maximum permissible population and/or learner to practitioner ratio established in Maltese legislation.

12.4 During periods officially designated as whole school and/or national examination periods the above arrangements may have to be suspended either partially or in full depending on the prevailing logistical demands.
13. Break-time

13.1 All Learning Support Educators, Kindergarten Educators, Teachers, Heads of Department and Assistant Heads of School directly deployed in schools and whose line manager is a Head of School/Learning Support Centre Coordinator are required to perform mid-morning break supervision which shall be shared equitably amongst them on a roster basis defined by the Senior Management Team (SMT), ensuring that a staff to student ratio of 1:40 is maintained (hence assigning a staff member for every 40 students or part thereof).

13.2 Grades mentioned in clause 13.1 shall on a voluntary basis perform midday break supervision duties which shall be remunerated at an hourly rate equivalent to $1/904 of one half of the minimum basic salary point of scale nine i.e. (Minimum of Scale $9 x \frac{1}{2} \div 904$).

Provided that the same 1:40, staff member to students, ratio is guaranteed and in cases where not enough staff is available to cover this established ratio, teaching grades will be required to engage in such a roster and be remunerated accordingly.

Provided further that schools shall first endeavour to cover mid-day break supervision duties from amongst volunteering educators, any other remaining vacancies may also be offered to non-teaching grades.

13.3 Schools shall endeavour to organize activities during the mid-day break and shall be given an increased complement as additional supervision points (placements) to cover such activities, specifically being assigned a supervising member of staff for every activity. Provided that each student is entitled to one (1) activity per week and activities would have an average of fifteen (15) participating students, the number of mid-day break activities entitled to each school is obtained by dividing the respective school’s student population by 15, to reach the total number of activities per week, then by five (5) and rounded up for the number of activities, hence the entitled additional supervision points, per day.

13.4 Heads and Assistant Heads of School shall, on a roster basis, undertake overall mid-day break supervision sessions daily, over and above the number of teaching grades required in each school. The overall supervision shall be undertaken as follows:

<table>
<thead>
<tr>
<th>Students Range</th>
<th>Supervisors</th>
</tr>
</thead>
<tbody>
<tr>
<td>Up to 150</td>
<td>1 overall supervisor</td>
</tr>
<tr>
<td>151 - 400</td>
<td>2 overall supervisors</td>
</tr>
<tr>
<td>401 - 700</td>
<td>3 overall supervisors</td>
</tr>
<tr>
<td>701 - 900</td>
<td>4 overall supervisors</td>
</tr>
<tr>
<td>901+</td>
<td>5 overall supervisors</td>
</tr>
</tbody>
</table>

Provided that every Head of School shall be entitled, if s/he so opts, to undertake overall mid-day break supervision daily over and above the complement herein established.

13.5 LSEs assigned to students with a full time one-to-one statement of needs shall always be required to perform both mid-morning and mid-day break supervision duties with the student under their care and shall be remunerated accordingly. LSEs shall be entitled to a daily fifteen minutes break time and shall be scheduled in agreement between the line manager and the same LSE. When the student is absent from school, the LSE shall be assigned supervision duties where required by management. Furthermore, when the LSE is absent from school, the full time one-to-one learner’s needs shall be met by other LSEs through a schedule drawn up by the management, whenever this is possible.

13.6 All grades defined in clause 13.1 may be offered the opportunity to perform Early Arrival or Dismissal Supervision duties and shall be remunerated on the same mechanism regulating the mid-day break supervision, in force from time to time. The ratio that schools shall be assigned as supervision points during Early Arrival and Dismissal Supervision shall be that of 1 Educator is to 50 students using school transport.

13.7 During Educational visits out of the school premises, teaching grades shall be assigned supervision duties of learners on a ratio of 15:1 provided that there shall be always a minimum of two teaching grades accompanying the group.
13.8 The above clauses in section 13 apply also to teaching grades engaged on a definite contract including those engaged as Supply.

14. Learner Population

14.1 The Student Population in the class is dependent on the learners’ educational needs and according to the professional judgement of the school’s senior management team. It is being recognised that there is no one-size-fits-all in classroom composition and this might vary depending on the needs of the classroom. MEDE is to endeavour in keeping as close as possible to the National Minimum Conditions as per provisions stipulated in the legal notice for the said National Minimum Conditions for all schools and any subsequent amendments.

14.2 The student population shall not exceed fourteen (14) learners in Kinder I and nineteen (19) learners in Kinder II.

14.3 Provided that when:
   (i) the Kindergarten Educator/KGEC teacher is absent, and a reliever is not available, the number of learners may increase to fifteen (15) and twenty (20) respectively;
   (ii) the class has at least one (1) student with a Statement of Needs the student population shall not exceed twelve (12) learners in Kinder I and sixteen (16) learners in Kinder II, unless the above provision is required to prevail;
   (iii) a class is composed of learners from Kinder I and Kinder II the class population shall reflect that of the Kinder I classes;
   (iv) when two groups share the same room, the number of children shall not exceed twenty two (22) in the case of Kinder I and thirty (30) in the case of Kinder II.

14.4 The student population in Years 1 to 6 shall not exceed twenty eight (28) learners.

14.5 Provided that:
   (i) when the class has at least one (1) learner with a Statement of Needs, the student population in class shall not exceed twenty four (24);
   (ii) in Primary Schools, classes and/or groups for PSCD in Years 1 to 6, shall not exceed sixteen (16) learners.

14.6 The student population in Years 7 to 11 (Forms 1 to 5) shall not exceed twenty six (26) learners per class.

Provided that:

(i) Classes catering for mixed-ability learners, hence at attainment levels 4-5, 5-7, 6-7 and 7-8/9, shall not exceed twenty four (24) students per class, provided that in exceptional cases the number of students can increase to twenty five (25);

(ii) Classes catering for learning at attainment levels 7-8/9 shall not exceed twenty four (24) students per class, provided that in exceptional cases the number of students can increase to twenty five (25);

(iii) Classes catering for learning at attainment levels 6-7 shall not exceed twenty four (24) students per class;

(iv) Classes catering for learning at attainment levels 5-7 shall not exceed twenty (20) students per class;

(v) Classes catering for learning at attainment levels 4-5 shall not exceed thirteen (13) students per class;

(vi) Classes catering for subjects having a strong hands-on component and/or taught in a Lab or Workshop shall not exceed sixteen (16) students per class. These shall include, but may not necessarily be limited to, Art Option, Biology, Chemistry, Computing, Design and Technology (D&T), Home Economics (HE), Integrated Science, Personal, Social and Career Development (PSCD), Physical Education (PE) Option, Physics, and all Vocational Education and Training (VET) subjects. Provided that ICT shall be taught as whole classes in Years 7 and 8 (Forms 1 and 2) and in groups of not more than sixteen (16) students in Years 9 to 11 (Forms 3 to 5);

14.7 In Learning Support Centres, Educational Hubs and Resource Centres the student population per class shall not exceed 8 learners, and in migrant induction classes the student class population shall not exceed 15.

14.8 Provided that for all subjects at the Secondary level, requiring a laboratory/workshop setup the number of learners shall not exceed sixteen (16) learners in normal circumstances and seventeen (17) learners if a new learner is admitted after the start of the scholastic year as approved by the Head of College Network.
15. Teaching, Learning and Assessment

15.1 Ongoing Assessments - In the Early Years and in Junior Year 3, assessment is to exclusively take the shape of teacher/learner-based, formative, ongoing assessment with a cumulative trimester reporting on broad competences. In the Early Years, learners’ progress should be recorded and reported in a qualitative manner as determined by management, from time to time, in agreement with the union. Ongoing assessment by class/subject/area teachers is to be compiled in the learner’s folder (cumulative documented collection of evidenced learning outcomes being achieved by the learner) continue throughout all years up to the end of the Secondary and Upper Secondary when national assessment at MQF 4 evolves to embrace the learning outcomes approach. The recording of these outcomes for reporting purposes, will be performed manually by a cut-off date that is not earlier than fourteen (14) working days and not later than seven (7) working days preceding the end of each term, or the start of the exam period where applicable, and be submitted to the school’s SMT, until such time that an online system would be made available and its use agreed upon with the Union, in which case digital recording and submission of outcomes would replace the manual recording and submission. Provided that, whereas all learners shall receive three feedback reports (one per Term), Year 11 (Form 5) students, shall receive similar feedback reports for the first two terms and the evolved End-of-Secondary Education Certification following completion of the third term.

15.2 Summative assessment - In Years 4 to 11 (Form 5), schools shall replace school-based half yearly examinations with varied modalities of teacher-led ongoing assessment, but will retain school-based annual examinations (written/oral/aural/practical as may be appropriate) that shall be held in June. The Education Assessment Unit (EAU) will continue to set exam papers/tools for all subjects at all levels offered and examined in the Junior and Secondary Years’ Cycles in State Schools. For the first five scholastic years of implementation of this agreement (2018/2019, 2019/2020, 2020/2021 and 2021/2022 and 2022/2023), all State Schools will avail themselves of papers issued by the EAU for all examinable subjects. As from 2023/2024 onwards, schools will start availing themselves of papers issued by the EAU ensuring that all subjects at the different levels are covered over a cycle of three (3) years with the remaining subjects being catered for by the respective schools. In particular circumstances, and given clear justifications, the Management may decide that specific schools would need to cover all exams with Papers produced by the EAU. Upon request from teachers and schools, the respective Head of College Network will facilitate clustering of schools for such purposes, which may be within as well as beyond the College. Examination papers, or relevant assessment tools, shall be set by Heads of Department, Education Officers and/or Teachers and be presented word processed in digital format in Maltese or English as may be applicable, to the school’s SMT not earlier than sixty (60) working days but not later than forty (40) working days prior to the start day of the examinations period. Marked scripts shall be returned within six (6) working days from the date of the respective examination. In the Primary Cycle, the compilation of the exam paper shall be coordinated by the designated Assistant Head of School or any other official within the office of the Head of College Network whose responsibilities include curricular matters (teaching, learning and assessment).

15.3 In preparation for the exam component of the national assessment at the end of Secondary Schooling held in May/June, Mock examinations for Year 11 (Form 5) learners shall be held in February. The same parameters for annual School or College exams in the preceding clause (15.2) apply.

15.4 The working days in July shall be reserved for the correction of scripts and reporting of assessment.

15.5 MEDE commits itself that in cases where additional supervision capacity is needed, additional invigilators will be provided to the schools by MEDE. Both parties also agree that discussions will commence to improve the current practices related to access arrangements during the examinations referred to in section 15.

15.6 All components, including, but not limited to the controlled summative assessment, of the national assessment of learning model being adopted for the respective subjects and which shall lead to national certification (Secondary Education Certificate – SEC) at the end of the Secondary Years in Year 11 (Form 5) will be administered at school by school staff (unless the physical resource required to perform an assessment is not accessible on the school’s premises or to the school; such as for swimming practical exams – in which case location would be at an appropriate site, or insufficient human resources to cover all invigilation duties – in which case the school would be complemented by other human resources for the specific purpose).

15.6 The controlled summative assessment (examinations) at the end of Secondary (Year 11/Form 5), known as SEC, unless agreed by all parties, shall start not earlier than Monday of the last full week in May and end by not later than the last school day preceding the 30th of June. The ongoing assessment components of national assessment will be designed (on pre-defined broad outcomes set by the designated authority MATSEC and providing sufficiently guiding task exemplars to aid teachers in designing the on-going-assessments and also making it possible to adopt these exemplars by the same teachers) and corrected by the respective
Heads of Department and/or Teachers engaged in the actual teaching whilst adhering to the quality assurance parameters and regulations set by the designated authority. The controlled summative component of the SEC national assessment will be developed, printed, distributed to schools, collected and corrected by the designated authority (MATSEC).

15.7 National Assessment at the end of the Secondary Years shall cover all subjects offered in the learner’s curriculum as long as this emerges out of the Learning Outcomes Framework as set within the National Curriculum Framework, and/or has been endorsed by the designated authority responsible for national assessment (MATSEC) within parameters set by the DQSE, or the designated regulatory authority at the time. Furthermore, whilst the school SMT and teachers will be responsible for the internal quality assurance in adherence to regulations that will be established and may be updated from time to time by the designated authority for national assessment (MATSEC), the latter, in agreement with MEDE and the Union, will externally quality assure the process to ensure validity, reliability and rigour.

15.8 In the case of the National Assessment at the end of the Primary Years, examinable subjects will be limited to the core subjects, being identified as Maltese, English, Mathematics, and Science. The remaining subjects are to be assessed (including the development, administration, marking and reporting) in a more ongoing way at a School or College level. Any assessments, including examinations, need to remain relevant and realistic, allowing space for educators to practice their profession.

15.9 Learners will need to be presented with assessment tools that minimize barriers which might limit the learners’ learning potential as per identified intended outcomes (for instance in the SEC national assessment, learners will be assessed and certified at MQF levels 1, 2, and 3), provided that within one cohort of learners (pertaining to the same school year) there can be no more than three different levels of assessment tools. Any further adaptation required for specific learners will need to be performed on the lowest level of assessment tool by the respective learners’ teacher guided and supported by special educational needs practitioners (LSEs, HoDs Inclusion, Psychosocial Professionals etc.).

15.10 As part of the learners’ right to access education, individuals may throughout their learning experience require specific support as deemed appropriate by educators or designated psychosocial professionals. This support, which may take various forms and be offered by the Teacher and/or the Learning Support Educator, is to be similarly offered to the learner during School/College/National ongoing as well as controlled summative assessment by the school staff, whilst safeguarding the required quality assurance parameters that ensure the reliability and validity of the assessment.

16. Enhancing Inclusivity

16.1 At Kindergarten and Primary level, inclusion provision for all learners shall be catered for by the Teacher or Kindergarten Educator responsible for the class and supported by Learning Support Educators as may be required (officially authorised by the Management). Learners with one-to-one statement of needs shall be assigned the services of a Learning Support Educator each.

16.2 In Kindergarten 1 to Year 6, all groups/classes shall benefit further from the support of a Learning Support Educator provided that the student population per group/class exceeds:
  • 12 learners in Kinder 1;
  • 14 learners in Kinder 2;
  • 18 pupils in Years 1 and 6;

This measure shall gradually come into effect at Kinder 1 level, and incrementally at the other consecutive levels in subsequent years as from September 2019, and subsequently rolled out as specified in Annex I – Implementation Timeline the Major Agreement Measures respectively.

16.3 At the Secondary Cycle, inclusion provision shall remain as per current practices for the duration of this agreement.

17. Developing a Community of Professional Educators (CoPE)

17.1 Signatories uphold the belief that active participation in Continuous Professional Development (CPD) may be a strong enabler for a high quality educational service provision and ensures that the teaching grades’ professional status is nurtured. Through this agreement greater emphasis is placed on schools and individuals to seek the most appropriate professional development which best respond to the contextual, national and international needs with a particular focus on the respective communities’ learners, educators, and educational leaders. The concept of CPD is being widened to encompass all development opportunities that nourish the creation of a Community of Professional Educators (CoPE), which includes all initiatives that facilitate professional discussion and growth amongst community members, such as school development planning sessions, continuous professional development and links with the internal and external community. All teaching grades rendering service in schools represented in this agreement are
required to actively participate in Management-driven CoPE sessions, and shall be encouraged to also take part in Self-sought CPD sessions (recognised by MEDE and/or accredited by a recognised authority).

17.2 Management-driven CoPE sessions shall include School Development Planning (SDP) and Continuous Professional Development (CPD) sessions. Management shall:
(i) have at its disposition a maximum of 40 hours CoPE time (excluding the two (2) preparation working days (3.75 hours each day) preceding the fourth Monday of September) during normal working hours unless otherwise stated in this Agreement;
(ii) ensure that in utilising CoPE time it does not encroach on the officially established teaching and learning time;
(iii) dedicate no less than 12 hours out of the total 40 hours CoPE time to whole school development planning sessions;
(iv) ensure that during at least 12 hours out of the total 40 hours CoPE time per year, learners are to remain at school;
(v) strive to analyse the professional development needs of its professional community and meet such needs through CoPE time;
(vi) aim to reach a balance between locally (school) and nationally (central authority) organised CPD, balance of which would have to be determined before the start of the scholastic year;
(vii) inform the school community well in advance, not less than forty (40) working days, of dates identified for CoPE time.

17.3 All staff pertaining to the education grades represented in this agreement shall be encouraged to undertake self-sought CPD. Provided that these may be undertaken during/or outside normal on site hours.

17.4 Continuing Professional Development will be defined in its different modalities: school initiated face to face and/or online, self-sought face to face and/or online, as well as formation through self-reflection and peer-to-peer learning. It is understood that all hours claimed as part of the eighty hours need to be documented and endorsed by the Head of School.

17.5 Educators shall voluntarily compile a Form designed by MEDE in consultation with the MUT, (which may be digital and eventually be part of a new MIS), whereby all claims of self-sought CPD should be submitted/uploaded prior to the end of the scholastic year. This may include submitting/uploading of any related evidence, including authenticated certificates of attendance, letters from academic tutors and other relevant material.

17.6 Self-sought CPD recognised by MEDE may be of three (3) broad types:
1. Professional learning opportunities in a school / college setting;
2. Professional learning opportunities based on externally designed programmes;
3. Professional learning opportunities based on self-development.

18. Mentoring

18.1 Mentoring, interpreted as support to other colleagues through transfer and knowledge sharing, is part of any officer’s duty and responsibility. Nevertheless, both parties agree that mentoring within a more controlled environment and within specific parameters, should be adopted in two specific scenarios,
(i) curricular/pedagogical mentoring with Newly Qualified Teachers (NQTs),
(ii) curricular/pedagogical and/or general practice mentoring in support of Teachers experiencing challenging circumstances.

18.2 Mentoring, as a structured supportive mechanism, may have two complementary dimensions to it, namely the curricular/pedagogical and the general practice. The curricular/pedagogical dimension is related to the subject/area content, and/or related pedagogy, and hence, wherever possible, such dimension of mentoring is to be dealt with by specialists in the subject/area, particularly HODs or teachers experienced in the subject/area. On the other hand, the general practice dimension which may include classroom management and/or work ethic, ought to be addressed through mentoring offered by an identified experienced teacher, who may be more knowledgeable on school life. Teachers who have successfully completed the recognised teacher mentoring programmes as determined by management from time to time, will be requested to perform such mentoring duties, whereas teachers not in possession of such certification will need to express their interest to be considered favourably for such duties.

18.3 Signatories agree that the Mentoring of Student Teachers is a highly valuable mechanism that may aid in fostering the continuity and strengthening of the profession through a distinct contribution by practitioners selected by the Initial Teacher Training (ITT) organisation, typically, but not necessarily exclusively, by the Faculty of Education (University of Malta), in consultation with the Management, and compensated by the same ITT organisation (i.e. the University of Malta or the respective body). Hence, Student Teacher Mentoring, which forms
18.4 Mentors shall be identified by the line manager of the member of staff concerned by using the parameters set out in clause 18.2, one’s own professional judgement and by ensuring that a mentor is at least at the same grade of the mentee. The time a mentor spends in class with the mentee shall be considered as a special duty and a contact-time. Provided a mentor shall have no more than two mentees at any point in time and that for each mentee, a mentor who is a teacher at the Secondary/Upper Secondary cycles or a Head of Department shall have two lessons accredited as contact time per week, unless otherwise directed by the Directorate for Educational Services. In the case of such teachers at the Primary cycle, they shall be replaced by a subject/area specialist teacher to allow observation of lessons and/or feedback time with the mentee. It is understood that observation and feedback sessions shall not exceed a total of ten hours per term.

18.5 A mentor cannot serve for more than one scholastic year with the same mentee unless mutually agreed.

18.6 All newly recruited staff pertaining to the education grades represented in this agreement are expected to participate actively in the induction process. The period of engagement prior to the award of the warrant/licence/registration, as may be applicable, is for the purpose of this agreement to be considered as the foundation years which may necessitate particular training, including the induction program. The induction process shall have two (2) components:

a. Supportive Component:
   i. Supportive through mentoring, identified as scenario (i) in clause 18.1 above, and
   ii. 6 hours which may be out of school hours in September organised by the DES for all new recruits within the MEDE with an additional 3 hour session in July to close the induction process.

b. Appraisal Component:
   i. PMPDP (agreed document in use) for new recruits in the grades of Learning Support Educators, Kindergarten Educators and Teachers at the different levels.
   ii. Class visits by the Education Officer / HOS or delegated A/Hd. Provided that in case of disagreement by the appraisee on the verdict the appraisee may request the intervention of the Director Education Resources who may appoint a third Education Officer or the Head of College Network for an independent opinion. Further provided that in terms of confirmation if no decision is taken at the close of the first year of employment the officer concerned will be automatically confirmed without further appraisal.

19. Student Pastoral Care

19.1 Student pastoral care shall involve the giving of personal advice and support to students on the part of a teacher as opposed to simply teaching them.

19.2 In the Early Years and Primary cycles this role shall be performed as a special duty by the class Kindergarten Educator/Teacher for all the learners in the respective class.

19.3 At the Secondary and Upper Secondary cycles teachers shall be required to undertake student pastoral care duties as part of the Role of Special responsibility as Form Teacher. Every Form Teacher shall be assigned a Home Class whose students s/he shall be following more closely from a pastoral holistic perspective.

19.4 At the secondary / upper secondary level, all teachers may be appointed as Form Teachers following an internal expression of interest at school/College level. In the absence of sufficient applicants to cover all classes, the College/School Management may appoint Form Teachers from amongst all teachers within the respective school, ensuring that these duties are distributed in a just and equitable manner amongst staff members at a particular year as well as over the years. The Form Teacher responsibility shall be compensated as one lesson per week in their contact time loading, including for any curricular, administrative and pastoral tasks that may need to be undertaken, which shall no longer include contributions to the Secondary School Certificate and Profile (SSC&P) unless related to the formal educational component.

20. Posts of Special Responsibility

20.1 Guidance Teachers - While taking into cognisance the development and evolvement of a professional student support service, and until otherwise directed by management, colleges and schools shall be provided with a supplement of five hours of guidance services per week for every 100 learners or part thereof. These services shall be provided by Guidance Teachers who shall be laterally deployed as such, following an internal call for application giving a marked preference, which
may not be less than 20 percentile points from across the assessment criteria, to teachers who have a qualification at least at MQF level 5 in a related area, as determined by management from time to time. In case of any remaining vacancies, MEDE in agreement with the Union reserves the right to issue a further internal call open to all teachers, giving a marked preference, which may not be more than 10 percentile points from across the assessment criteria, to teachers who have more than five years of teaching experience, distribution of such 10 percentile points reflecting the additional years of teaching experience the candidate possesses over and above the five years. While Guidance Teachers at the Secondary cycle shall retain at least a teaching load in their respective subject, not exceeding eight (8) hours up to a maximum of ten (10) lessons per week, Guidance Teachers from the Primary cycle shall have a maximum teaching load of eight hours per week as cover lessons, including but not limited to 21st century skills, well-being and personal growth. Guidance Teachers falling within a College shall be required to provide guidance services across the College Primary Schools for transition purposes and/or to cover lack of Primary/Secondary Guidance Teachers as directed by the Head of College Network. Guidance Teachers hailing from the Secondary cycle shall be exempted from taking cover lessons but shall dedicate all contact time, except for the hours required to teach the respective subject, for guidance services in direct contact with learners.

20.3 College Health and Safety Representative – In accordance with the Health and Safety Act (Act XXVII of 2000 article 6(4)) and subsequently in Legal Notice 36 of 2003), and any subsequent revisions, the role of Health and Safety Representative as described by the legislation is being agreed upon. The College Health and Safety Representative represents the interest of the workers and his/her role is distinct from that of Health and Safety Teachers. Each College shall elect a health and safety representative. His/her rights and obligations are established by Legal Notice 36 of 2003. The College Health and Safety Representative shall have a maximum teaching load of 14 lessons (including replacements) provided that in cases where the multiple of a specific subject exceeds 14 lessons in the particular subject, up to two additional lessons may be assigned.

20.4 First Aiders - With the intent to enhance the effort to ensure the well-being of learners diagnosed with life-threatening conditions that have been communicated to the School and to further address emergency situations which might require the use of first aid in life-threatening situations, each School and Centre shall qualify for the identification of two (2) First Aiders from amongst teaching grades for such cases. In cases where such officials are not in possession of a valid First Aid qualification, the management obliges itself to offer the required training outside of school hours. These identified educators shall be remunerated additionally for this responsibility. In recognition of the responsibilities shed on the Head of School by the Education Act in force from time to time, in absence of a first aider in school, the Head of School may also take on the full role of First Aider and also benefit from the remuneration for this additional duty.

20.5 Teacher Librarian - Secondary/Upper Secondary schools shall be entitled to two hours of Teacher-Librarian Services time per week for every 100 learners or part thereof. These services shall be provided by Teacher-Librarians who shall be laterally deployed as such, following an internal call for application giving a marked preference, which may not be less than 20 percentile points from across the assessment criteria, to candidates who have a qualification at services in direct contact with learners. This may also include lessons in form of information literacy sessions. Teacher Librarians shall be assigned lesson loading not exceeding eight (8) hours and up to a maximum of ten (10) lessons per week. Teacher Librarians may also be required to provide library services in the College primary sector. Any new parameters affecting the working conditions of Teacher-Librarians are to be established in agreement with MEDE and MUT. Any other services to enhance library provision shall be over and above the established parameters.

20.6 Teacher-librarians shall open the library twice a week during the mid-day break, and shall be compensated with the midday break supervision, forming part of the pre-established ratio for break activity points during midday break. Furthermore, Teacher Librarians may request to perform additional supervision duties during the remaining mid-day breaks which shall also form part of the established ratio for break activity points during midday break.
21. Non-Compulsory Educational Institutions (VPA)

21.1 Given the uniqueness of the sector, and whilst taking cognisance of existing practices, the parties may formalize further such parameters through an exchange of correspondence.

22. Upper Secondary Education

22.1 Parties agree that provision in Upper Secondary Education shall follow current practices provided that any changes impacting on working conditions shall be discussed and agreed upon in a separate document between MEDE and MUT.

Part IV – Education Grades

24. Learning Support Educator

24.1 It is the responsibility of the Learning Support Educator (LSE) to assist the teaching and learning process led by the Teacher, promoting independence and fulfilment of all learners, with or without a recognised statement of needs, in all learning experiences and contexts at all cycles (Early, Junior, Secondary and Upper Secondary Years) within the educational journey. The LSE is expected to collaborate closely, and be guided by the Teacher, and other professionals who may be supporting this endeavour within or beyond the classroom, under the leadership of the school’s Senior Management Team, also by engaging in the development of a Community of Professional Educators, including through School Development Planning. LSEs are required, as applicable, to perform duties which enable and/or support access to learning and assessment with:

- all learners in the class; or
• an individual learner on a full time one-to-one basis; or
• learners in Resource Centres.

24.2 Entry into the grade of Learning Support Educator III shall be open through a public call to persons in possession of a full MQF Level 6 qualification or higher, in inclusive education, or a comparable qualification, as determined by the competent authorities. Persons recruited in terms of this clause shall be placed in Salary Scale 10 as Learning Support Educator III upon entry and shall progress to Salary Scale 9 upon completion of five (5) years satisfactory service in the grade.

24.3 In the absence of applications from eligible candidates according to clause 24.2 above, and/or in the absence of successful candidates, eligibility for Learning Support Educator II shall be extended to holders of a full qualification at MQF Level 5 (for the sake of clarity, commonly referred to as Diploma) in facilitating inclusive education, as determined by the competent authorities. Persons recruited in terms of this clause shall be placed in Salary Scale 12 upon entry and shall progress to Salary Scale 10 on completion of five (5) years of satisfactory service in the grade.
